## EDUCATION

---

|                |                                                        |                                                 |
|----------------|--------------------------------------------------------|-------------------------------------------------|
| SEPTEMBER 2011 | CARTHAGE COLLEGE - KENOSHA, WI                         | <a href="https://carthage.edu">carthage.edu</a> |
| MAY 2015       | Pursuing a Bachelor of Arts Degree in Computer Science |                                                 |

## LANGUAGES AND TOOLS

---

- Have substantial experience with Java, Dart, Javascript, and C++.
- Have some experience with Ruby, Python, Go, and Clojure.
- Have experience with Sublime Text, Eclipse, Visual Studio, IntelliJ and more.
- Have been experimenting with Linux since October 2013.

## PROJECTS - MORE AT [MPETERSON2.GITHUB.IO](https://mpeterson2.github.io)

---

TURBO WOOKIE [github.com/turbowookie/turbo-wookie](https://github.com/turbowookie/turbo-wookie)  
Turbo Wookie is a collaborative jukebox; a group of people can start up a Turbo Wookie instance, share the address amongst themselves, and build a playlist that they'll be able to listen to concurrently.

JAVA-HTTPSERVER [github.com/dkuntz2/java-httpserver](https://github.com/dkuntz2/java-httpserver)  
A HTTP Server written in Java. Our goal was to give developers an easy to use API to create a RESTful web server using Java.

## WORK EXPERIENCE

---

|                |                                                |
|----------------|------------------------------------------------|
| SEPTEMBER 2013 | Tutor/Student Instructor at CARTHAGE COLLEGE   |
| PRESENT        | Tutored students in computer science subjects. |

|               |                                                                                                                                                                                                                                                                                |
|---------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| JUNE 2013     | Software Developer at STORYTELLER SOFTWARE                                                                                                                                                                                                                                     |
| DECEMBER 2013 | <a href="https://storytellersoftware.com">storytellersoftware.com</a><br>Recreated the frontend, using Javascript, to create a more maintainable code base; recreated the backend Java HTTP server to use a RESTful API; and introduced the project to several other students. |

|                |                                                        |
|----------------|--------------------------------------------------------|
| MAY 2012       | Overnight Stocker at WALMART                           |
| SEPTEMBER 2012 | Stocked shelves and helped customers with electronics. |

|                |                           |
|----------------|---------------------------|
| JUNE 2009      | Crew Member at WENDY'S    |
| SEPTEMBER 2011 | Worked at every position. |

## ACTIVITIES

---

- Carthage College Computer Science Club member, 2012 - 2014.
- Relay for Life volunteer, 2014.
